PROFESSIONAL SUMMARY

Android Developer with 2+ years of professional mobile development experience, focused on building user-centric Android applications with Kotlin, Java and modern Android development practices. Experienced in REST API integration, Firebase, MVVM, Retrofit, background services, session management, network operations and performance optimization. Strong hands-on experience delivering VPN, photo editing and safety-focused mobile applications, with additional Flutter/Dart experience.

TECHNICAL SKILLS

Languages	Kotlin, Java, Dart, XML
Android	Android SDK, Android Studio, MVVM, Clean Code, REST APIs, Retrofit
Backend & Services	Google Firebase, RESTful APIs, Background Services
Tools	Git, GitHub, Glide, GPU Image
Frameworks	Jetpack Compose, Flutter, Provider

PROFESSIONAL EXPERIENCE

Android Developer | Leading Folks Feb 2026 – Present

Islamabad, Pakistan · On-site

- Develop and maintain Android applications as an Android Developer, contributing to application functionality, UI implementation, API integration and production-quality improvements.
- Work with Android Studio, REST APIs and modern Android development tools to build and improve mobile experiences.
- Collaborate on application development and troubleshooting while focusing on performance, reliability and user experience.

Android Developer | GenZonix Aug 2025 – Feb 2026

Islamabad, Pakistan · Remote

- Developed and completed VPN applications with connection-state management, error recovery and reliable background operation.
- Implemented background services and network monitoring to support stable and persistent VPN connections.
- Built onboarding flows, custom dialogs, premium-feature experiences and session-management functionality.
- Debugged and optimized real-time network operations with a focus on reliability and user experience.

Android Developer | PlayItAgain Sep 2024 – Jul 2025

Islamabad, Pakistan · On-site

- Built two complete Android applications from scratch and contributed to several additional mobile applications.
- Developed a feature-rich photo editor with background removal, filters, cropping, blending effects, customizable collage templates and frame selection.
- Optimized image-related functionality and performance using libraries including Glide and GPU Image.
- Developed a CarPlay emergency application with accelerometer-based crash detection, real-time location tracking and automated emergency alerts via email.
- Worked on VPN connection handling, background services, session management, custom dialogs, onboarding flows and secure user-preference handling.

Intern | Rubikkube Feb 2024 – Aug 2024

Islamabad, Pakistan

- Built foundational mobile-development experience using Flutter and Dart.
- Created responsive UI components and implemented state management using setState and Provider.
- Integrated RESTful APIs and handled user input and application state.

SELECTED PROJECTS

VPN Application

- Built a secure VPN application with seamless server switching, automatic reconnection and connection-state management.
- Implemented onboarding with privacy-policy consent, premium-feature dialogs, session management, background services and network monitoring.

CarPlay Emergency App

- Developed an emergency-focused application with accelerometer-based crash detection and automated emergency alerts.
- Integrated real-time location tracking and an intuitive UI for reliable emergency workflows.

Photo Editor App

- Contributed to a feature-rich photo editor with background removal, filters, cropping, blending effects, collage templates and frame selection.
- Focused on performance optimization and a smooth, intuitive editing experience.

EDUCATION

Bachelor in Computer Science | Allama Iqbal Open University

Aug 2018 – Oct 2023 · Islamabad, Pakistan

ICS in Computer Science | Islamabad Model Postgraduate College H-8/2

Aug 2016 – Aug 2018 · Islamabad, Pakistan
